

MOHAMED ASAAD

Energy Professional | Market Intelligence & Business Development

Cairo, Egypt | +20 100 567 8356 | muhammed_asaad@outlook.com | [Mohamed Asaad LinkedIn](#) | [Mohamed Asaad Profile](#)

PROFILE

Electrical engineer at Hitachi Energy with a background in transformer design and R&D, building a career in market intelligence, commercial strategy and business development in the energy sector. Combines hands-on engineering credibility with market, customer and competitor research, machine-learning forecasting (XGBoost / LSTM, published as an IEEE conference paper) and structured business training (AUC Business Acumen program). Explains complex technical and market information clearly to executive and non-technical audiences.

CORE STRENGTHS

- Market, customer & competitor research
- Forecasting & data analysis (XGBoost / LSTM)
- Technical-to-business translation
- Persuasive presentations & sales collateral
- Customer & stakeholder engagement
- Cross-functional coordination
- Energy transition & smart grid knowledge
- Adaptability & fast learning

PROFESSIONAL EXPERIENCE

Design Engineer | Hitachi Energy

Sep 2025 – Present

Cairo, Egypt

- Coordinate across design, production, testing, quality and operations teams to align project delivery with customer requirements.
- Support digitalization and process-automation initiatives that improve efficiency and standardization.
- Ranked #1 globally on the company learning platform (1,070 points / 107 hours) while completing programs on product value and quality frameworks.
- Presented to senior leadership and government stakeholders during facility visits, communicating with non-technical, executive audiences.

R&D / Design Engineer | TEC TRAFO

Jul 2024 – Aug 2025

Cairo / Giza, Egypt

- Supported the company strategy to expand into sustainable, energy-efficient transformer product lines, contributing to new-product positioning and market direction.
- Prepared client-facing documentation that translated technical specifications into clear, business-relevant terms for customers and partners.
- Worked with production and business teams to align product development with market and client needs.
- Built a custom transformer design tool that automated engineering calculations.

Electrical Engineer | iSON Xperiences

Aug 2024 – Apr 2025

Cairo, Egypt

- Coordinated vendors and internal stakeholders across multiple company sites, building project- and relationship-management skills for client-facing work.

Engineer, Military Service | Arab International Optronics

May 2023 – May 2024

Cairo, Egypt

- Coordinated operations across five production lines spanning multiple product categories.

BUSINESS, RESEARCH & ANALYTICS PROJECTS

- Marketing Plan Project (18 chapters + 37-slide deck):** marketing plan for a digital monitoring platform in industrial technology, using competitive benchmarking, SWOT, PESTLE, Porter's Five Forces and the 7Ps.
- Market Research Study, AUC School of Business:** co-developed a graduate-level proposal analyzing the Egyptian online grocery sector, delivered as a formal branded report.
- AI Load Forecasting (MSc research):** short-horizon load forecasting for smart buildings with XGBoost / LSTM, published as an IEEE conference paper.
- Executive Communication:** built and delivered a 30-slide profile presentation to leadership.

EDUCATION & TRAINING

MSc, Electrical Power & Machines Engineering | Ain Shams University (in progress)

BSc, Electrical Power & Machines Engineering | Ain Shams University, 2017 – 2022

Business Acumen Program | Onsi Sawiris School of Business, AUC Executive Education (in progress): Principles of Marketing and Marketing Research completed; Marketing Communication in progress; Sales Principles upcoming.

Certificates: Digital Skills for Work and Life (Accenture); Demand Response and the Smart Grid (Schneider Electric University); Fundamentals of Digital Marketing; Renewable Energy and Green Building Entrepreneurship; Scientific Writing for MSc Students.

LANGUAGES & TOOLS

Languages: Arabic (native); English (fluent, TELP score 550, equivalent to TOEFL); Italian (basic).

Tools: Python, MATLAB, ETAP, AutoCAD, PVsyst; Excel-based analysis and presentation design.
